MS in the Science of Health Care Delivery Program Handbook
This handbook is a guide and initial resource for graduate students admitted to the M.S. in the Science of Health Care Delivery in the College of Health Solutions. Students are also encouraged to consult with support staff within the college. The primary reference for graduate students on rules and regulations is the Arizona State University Graduate College website.

Once admitted to the SHCD graduate program, students have access to the SHCD Graduate Student Canvas organization, where they will be able to find many of the materials in this handbook. Admitted students can access the site through their MyASU.

Graduate College requirements define the basic policies for obtaining a degree from ASU; these policies can be found on the ASU Graduate College website. SHCD has several additional requirements, beyond the standard ASU policies, that are identified in this handbook.

The Science of Health Care Delivery
The science of health care delivery is an interdisciplinary research field that focuses on
collaboration among current and future health care workers to systematically address the
critical and complex needs of the health care system. Through the interdisciplinary study of
population health, patient-centered care, health economics, policy, data analytics and
leadership, students gain the skills necessary to achieve value-based health care in pursuit
of the Triple Aim. All programs are specifically designed to meet the needs of students from
various backgrounds and experience levels including entry-level, gap-year medical students,
as well as those with extensive and ongoing careers in the health care field.

**Student Responsibilities**

Students enrolled in the M.S. in SHCD are expected to observe policies expressed in this
handbook as well as academic policies of Arizona State University. Above all, we expect
each student to maintain a high level of academic integrity. Each student must act with
honesty and integrity, and must respect the rights of others in carrying out all academic
assignments. The policies that our program abides by include the student academic integrity
policy, the student code of conduct and the misconduct in research policy of ASU. We
require students to review and observe these policies described in the [Board of Regents
Policy Manual](#).

We expect students to be accountable for the policies defined above. Violations of a
Graduate College, SHCD or Arizona State University policy will result in academic review
and may result in disciplinary procedures.

**Academic Integrity**

Graduate students are expected to be ethical in their multiple roles as students,
researchers, teachers or supervisors of undergraduate students, and representatives of the
School and University. When in doubt about appropriate conduct, students should consult a
faculty mentor to seek clarification. Breaches of academic integrity include, but are not
limited to, the following:

- Engaging in any form of academic deceit, e.g., referring to materials, sources, or
devices (camera phones, text messages, crib sheets, solution manuals, materials from
previous classes, or commercial research services) not authorized by the instructor for
use during an evaluation or assignment;
- Providing inappropriate aid to another student in connection with any evaluation or
assignment;
- Engaging in plagiarism by using the ideas, words, or data of another person or persons
without full and appropriate attribution;
- Engaging in plagiarism by claiming credit for the ideas, words, or data of another
person or persons, or submitting work done by another as one's own;
- Failing to follow ethical procedures for research involving human subjects, such as
violating participants' confidentiality, or failing to maintain confidential or sensitive
research data in a secure location;
- Knowingly using data that do not meet appropriate standards for reliability and validity;
- Failing to meet responsibilities to undergraduate students, such as failing to provide
assistance during designated office hours;
- Engaging classroom or research setting; in a romantic relationship with an
undergraduate student whom you supervise or evaluate in a
- Falsifying or misrepresenting hours or activities in relationship to a Capstone or other
program-related learning experience;
- Repeatedly failing to meet commitments and responsibilities, such as chronically
missing deadlines, or failing to provide work promised to colleagues; and
- Behaving in a way that reflects poorly on the School or University while conducting
research or participating in community activities as a representative of the School.

The Science of Health Care Delivery program has a zero-tolerance policy for any form of
academic malfeasance. Penalties for unethical behavior range from being placed on academic probation to dismissal from the program. Additional information about academic integrity policies of the University is available on the Student Rights and Responsibilities website. The Graduate College information regarding academic integrity is available on the Academic Integrity website.

**Sexual Harassment**
The university prohibits sexual harassment by employees and students and will not tolerate sexual harassment that interferes with an individual's work or educational performance or creates an intimidating, hostile, or offensive working, learning, or residential environment. Additional information can be found here.

**Campus Safety**
To report an emergency on campus, students can simply dial 911 or use one of the emergency call boxes found on campus. Non-emergency ASU Police or campus-safety matters should be directed to 480-965-3456. ASU has an opt-in, text-message alert system by which students can choose to receive a text message from ASU in times of an emergency. For safety resources and contacts, such as Counseling Services, Police, and Safety Escort Services, click here.

**SHCD Faculty**
SHCD faculty can be found here.

**Tuition and Fees**
Students can find up to date information on tuition and fees here.
**Financial Support**
Students should visit the Graduate College site and other links for funding resources:
- ASU Financial Aid
- ASU Resources
- Federal Student Aid (Student Loans)
- Working at ASU
- National Science Foundation Graduate Research Fellowship Program
- National Institutes of Health Grants
- National Research Service Award (NRSA) Research Training Grants and Fellowships

**Additional University Resources**
- Bookstore
- Campus Health Services
- Career and Professional Development Services
- Counseling and Consultation
- Disability Resource Center (DRC)
- Graduate Admissions Office
- Graduate College - Current Student Academic Resources
- Graduate College - Format Evaluation
- Graduate and Professional Student Association
- Graduation Office (Registrar)
- International Student Office

- Sun Devil Ticket Office
- Testing Services, University
- University Housing
- University Technology Office

**ASU Graduate College Policies on Academic Progress**
Students in the M.S. SCHD program are subject to ASU Graduate College Policies and the ASU College of Health Solutions (CHS) policies. ASU defines the basic requirements for obtaining a graduate degree in the ASU Graduate Policies and Procedures manual.

Please note that the Graduate College and CHS requirements for satisfactory academic progress may be insufficient to meet the M.S. SHCD program requirements for satisfactory academic progress. Where applicable, M.S. SHCD program policies supersede policies set...
forth by ASU Graduate College and the College of Health Solutions. For reference, the Graduate College policies on satisfactory academic progress are provided below.

**Satisfactory Academic Progress (ASU Graduate College)**

**GPA (Grade Point Average)** Graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. The minimum 3.00 GPA must be maintained on all GPA's [Plan of Study (iPOS) GPA, Overall Graduate GPA and Cumulative GPA]

1. The iPOS GPA is calculated on all courses that appear on the student’s approved iPOS (with the exception of LAW and Transfer credits).
2. Cumulative ASU GPA represents all courses completed at ASU.
3. The Overall Graduate GPA is based on all courses numbered 500 or higher that appear on the transcript after admission to a graduate program or graduate non-degree-seeking. This includes shared coursework if in an approved accelerated bachelor's/master's program.

Courses with grades of “D” (1.00) and “E” (0.00) cannot appear on the iPOS but will be included when calculating the Graduate GPA. Courses with an “I” grade cannot appear on the iPOS.

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below, and achieving the benchmarks and requirements set by the individual degree programs as well as the Graduate College. If a student fails to satisfy the requirements of their degree program and/or the benchmarks outlined below, the student may be dismissed from their program based on the academic unit’s recommendation to the Graduate College at which time the Vice Provost for the Graduate College makes the final determination.

The below as well as all other Graduate College policies can be found in the ASU Graduate Policies and Procedures.

1. Maintain a minimum 3.0 for all GPA’s.
2. Satisfy all requirements of the graduate degree program.
3. Satisfy the maximum time limit for graduation from the student’s graduate degree program (six years for masters).
4. Successfully pass comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal/prospectus for the thesis or dissertation. (not applicable to this program)
5. Successfully complete the culminating experience.
6. Graduate students must remain continuously enrolled in their degree program. Failing to do so without a Graduate College approved request to Maintain Continuous Enrollment is considered lack of satisfactory academic progress.
MS SHCD Program Policies on Academic Progress

Standards Committee
The M.S. SHCD Standards Committee will consist of faculty members in the Science of Health Care Delivery program. Duties of the Standards Committee include:

- Review the performance of all graduate students in the Science of Health Care Delivery program that fail to make satisfactory academic progress or violate academic integrity expectations.
- Make recommendations to address students’ unsatisfactory academic progress or breach of academic integrity. Recommendations may include but are not limited to:
  - Developing a remediation plan (including a timeline for completion)
  - Placing a student on academic probation
  - Dismissing a student from the program
- Providing the Director of the program written notice of any recommendation to dismiss a student from the program.

Satisfactory Academic Progress in the M.S. SHCD Program
To maintain satisfactory academic progress, students pursing the M.S. degree in the Science of Health Care Delivery will be expected to meet the following requirements:

1. Per Graduate College guidelines, graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. Students whose cumulative GPA falls below 3.00 are placed on academic probation, receive an advising hold on their account, and are required to complete an academic performance improvement plan. If students are unable to raise the GPA to a 3.00 within nine credit hours or one year (whichever comes first), the program standards committee may recommend the student for dismissal from the program.

2. Earn no unsatisfactory grade during the entire program. An unsatisfactory grade is defined as a W/E (withdrawal while failing) or a grade below “C” in any course that appears on the Plan of Study (iPOS), with the exception of the Capstone course (HCD 550).

3. The culminating Capstone project course (HCD 550) is held to a higher standard than other courses within the program; HCD 550 requires a grade of “B” or higher. Therefore, any grade below a “B” in HCD 550 is considered unsatisfactory.

4. Receive a grade below “B-“ in no more than two courses that appear on the iPOS, with the exception of the Capstone course (a grade of “B” or higher is required for HCD 550).

5. Note that although “C’s” are allowed within the M.S. SHCD program (with the exception of the Capstone course which requires a grade of “B” or higher), obtaining a grade of below “B-“ in more than one course is considered

6. unsatisfactory academic progress. (Obtaining a grade below “B-“ in more than two courses may result in dismissal from the program).

7. Complete all required core courses as scheduled. If a student receives an incomplete (grade of “I”) in any course that appears on the iPOS, the student and course instructor must submit to the Degree Coordinator a mutually agreed upon
written plan to complete the coursework by a specified date, not to exceed one calendar year. The student will be permitted to continue coursework. However, if the student does not complete the required course by the conclusion of the agreed upon time period, the grade in the course may become an “E.”

Maintain Continuous Enrollment
Once admitted to a graduate degree program or graduate certificate program, students must be registered for a minimum of one credit hour during all phases of their graduate career, including the term in which they graduate. This includes periods when students are engaged in research, conducting a doctoral prospectus, working on or defending theses or dissertations, taking comprehensive examinations, taking Graduate Foreign Language Examinations, or in any other way utilizing university resources, facilities or faculty time.

Registration for every fall semester and spring semester is required. Summer registration is required for students taking examinations, completing culminating experiences, conducting a doctoral prospectus, defending theses or dissertations, or graduating from the degree program.

To maintain continuous enrollment the credit hour(s) must:
- Appear on the student’s Plan of Study, OR
- Be research (592, 792), thesis (599), dissertation (799), or continuing registration (595, 695, 795), OR
- Be a graduate-level course.

Grades of “W” and/or “X” are not considered valid registration for continuous enrollment purposes. “W” grades are received when students officially withdraw from a course after the drop/add period. “X” grades are received for audit courses. Additionally, students completing work for a course in which they received a grade of “I” must maintain continuous enrollment as defined previously. Graduate students have one year to complete work for an incomplete grade; if the work is not complete and the grade changed within one year, the “I” grade becomes permanent. Additional information regarding incomplete grades can be found at asu.edu/aad/manuals/ssm/ssm203-09.html.

Graduate students planning to discontinue registration for a semester or more must submit an approved Request to Maintain Continuous Enrollment form. The request must be submitted to the Graduate College before the semester in which the leave is being requested begins. The form can be found here.

Consequences of Unsatisfactory Academic Progress (Academic Probation and Recommendation for Dismissal)
The Standards Committee will review the academic record of any student who fails to make satisfactory academic progress and make appropriate recommendations. Note that students in the M.S. SCHD program are subject to Graduate College policies as well as the College of Health Solutions (CHS) policies. Specific recommendations made by the M.S. SHCD Standards Committee and the consequences listed below are above and beyond the consequences set forth by the Graduate College and the College of Health Solutions.

Per Graduate College guidelines, graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. Students whose cumulative GPA falls below 3.00 are placed on academic probation, receive an advising hold on their account, and are required to complete an academic performance improvement plan. If students are unable to raise the GPA to a 3.00 within nine credit hours or one year (whichever comes first), the program standards committee may recommend the student for dismissal from the program.

Revised: July 2019
1. Note that although a single instance of a grade below “C” in an academic course may be permissible, that grade may not be included in the Plan of Study.

2. Therefore, if a student receives a single grade below a “C,” he/she must retake the course and earn a grade of “C” or higher. A student who receives a second grade below “C,” regardless of whether or not he/she has retaken a course, will NOT be permitted to continue coursework as scheduled and will be recommended for dismissal from the program. Example:
   i. A student earns a “D” in a course and retakes it and earns a “B.”
   ii. He/she later earns a “D” in another course.
   iii. This student will have obtained a second grade below “C.” Therefore, the student will NOT be permitted to continue coursework as scheduled and will be recommended for dismissal from the program.

3. Although “C’s” are permitted within the M.S. SHCD program, the maximum number of courses allowed to appear on the iPOS with grades below “B-“ is two. In addition, a grade of “B” or higher must be earned in the Capstone course (HCD 550).

4. A student who receives a grade below “B-“ in more than one course on the iPOS may be placed on academic probation. During academic probation, the student will be permitted to continue coursework. However, if a student receives a third (or more) grade below a “B-,” he/she will be recommended for dismissal from the program. For the purposes of this calculation, a course that was retaken (because a grade below “C” was obtained) will be counted. Example:
   i. A student earns a “D” in a course and retakes it and earns a “B.”
   ii. He/she later earns a “C” in another course.
   iii. This student will have the maximum number of courses with a grade below “B-“ that are allowed by the program. Therefore, if the student obtains a third grade below “B-,” he/she will NOT be permitted to continue coursework as scheduled and will be recommended for dismissal from the program.

5. Once a student has been placed on academic probation, he/she will remain on academic probation while continuing coursework in the program and will only be removed from academic probation upon successful completion of all degree requirements.

**Grade Appeals**

Grade appeals are heard based on if the grievance is grade or non-grade related.

- Grade related appeals should first begin by having a discussion with the instructor in question. If the issue remains unresolved the student may submit an appeal to the Degree Coordinator and Academic Program Lead for their respective degree program. If the issue remains unresolved the student may then appeal to the College of Health Solutions Academic Standards and Student Grievance Committee.
- Non grade related appeals should begin with a discussion between the student and instructor to discuss the grievance. If the matter remains unresolved the student may then petition their case to the College of Health Solutions Executive Director of Student Success.
- For additional information, including the appeal form, please email CHSGrad@asu.edu or call 602-496-3300.
**Dismissal from the M.S. SHCD Program**

The Standards Committee may recommend that a student be dismissed from the program for any of the reasons listed in the *Consequences of Unsatisfactory Academic Progress* section of this handbook (above). Additional reasons for dismissal from the program include:

1. Two (or more) separate instances of unsatisfactory academic progress, regardless of the session(s) in which the poor performance occurred.
2. A single violation of academic integrity which includes, but is not limited to: cheating, fabrication, tampering, plagiarism, or aiding and/or facilitating such activities. At the graduate level, it is expected that students are familiar with these issues and each student must take personal responsibility for his/her work. In addition, graduate students are expected to follow university guidelines related to the Student Code of Conduct. University policies related to academic integrity and code of conduct are available in the Office of Student Life. Conduct prohibited by the Arizona Board of Regents Student Code of Conduct can be found [online](#).
3. Seriously compromising the relations of the School with the Public.
4. Breaches of ethical judgment or professional responsibility.
5. Serious instances of personality or character traits inappropriate for the professional roles for which the student is attempting to prepare.
6. Periods of absence during a semester without the endorsement of the program.

The student, Academic Program Lead, Standards Committee members, and Vice Provost of the ASU Graduate College will be notified in writing of any recommendation for a student to be dismissed from the program.

Students may appeal a decision for dismissal from the program by the core faculty by submitting a letter to the College of Health Solutions Academic Standards and Student Grievance Committee. The letter must be received within 10 business days of the date of the letter of dismissal.

**Academics**

**Plan of Study (iPOS)**

The Plan of Study (iPOS) is a formal plan to meet degree requirements. The iPOS is an agreement that work specified on the iPOS will be sufficient for the degree.

Students are encouraged to submit the iPOS upon beginning the SHCD program, but are required to submit the iPOS no later than when they complete 50% of the minimum credit hours for the degree being pursued have been completed.

A Plan of Study (iPOS) must be filed online via MyASU with the Graduate College. It must include all courses to be taken, as well as the Degree Coordinator for the program. An approved Plan of Study must be on file before a student can register for the culminating experience (HCD 550 Capstone). The Science of Health Care Delivery program adheres to all ASU Graduate College policies related to academics and the Plan of Study.

**Courses Requiring Department Consent**

The following courses require department consent for registration:

- HCD 550
- HCD 592

Students must have approval from the Capstone Coordinator and have an approved iPOS before the student will be eligible for registration. The Graduate Coordinator provides the
override necessary to register in these courses. Students must be in Good Academic Standing to register in any course that requires department consent.

**Grades**

The Graduate College assigns a general grading policy for all students attempting a graduate degree. With the exception of the Capstone coursework (i.e. HCD 592/550), for which (+) or (-) grades do not apply, grades in the MS SHCD program are assigned as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Graduate Definition</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.00</td>
</tr>
<tr>
<td>A–</td>
<td></td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>Good</td>
<td>3.33</td>
</tr>
<tr>
<td>B–</td>
<td></td>
<td>3.00</td>
</tr>
<tr>
<td>C+</td>
<td>Good</td>
<td>2.67</td>
</tr>
<tr>
<td>C</td>
<td>Good</td>
<td>2.33</td>
</tr>
<tr>
<td>D</td>
<td>No Graduate Credit</td>
<td>2.00</td>
</tr>
<tr>
<td>E</td>
<td>Failure</td>
<td>0.00*</td>
</tr>
</tbody>
</table>

*This grade cannot be applied to a graduate degree but is included in the calculation of a grade point average.

**This grade is given whenever a student officially withdraws from a class.

***This grade is usually given pending completion of courses such as research, thesis, dissertation or practicum. All grades of “Z” must be changed to “Y” before graduation.

A grade of “P” (pass) in a 400 or higher level course may not appear on a Plan of Study. Grades of “D” or “E” cannot be used to meet the requirements for a degree although they are used to compute the grade point averages. A student receiving a grade of “D” or “E” must repeat the course in a regularly scheduled (not an independent study) class if it is to be included in the Plan of Study. However, both the “D” or “E” and the new grade are used to compute the grade point averages.

Grades on transfer work will not be used in computing grade point averages. In addition, please note, as described above in the *Satisfactory Academic Progress in the M.S. SHCD Program* section of this handbook, no more than two grades below “B-” can appear on the Plan of Study for students in the program.

**Advising**

To ensure that academic programs run as smoothly as possible, students should consult with their Graduate Coordinator prior to registering for classes each semester. Coursework is ultimately reviewed and approved when the iPOS is submitted and approved.

**Application for Graduation**

Students should apply for graduation during the semester of planned graduation and must apply no later than the date specified at the Graduate College website. Students are encouraged to apply for graduation online through their MyASU.

**Required Core Courses**

The core courses provide students from diverse backgrounds with a solid grounding in the transdisciplinary field of health care delivery. SHCD courses are offered once per calendar year, in both online and immersion programs. Thus, failure to complete a required graduate course during the appropriate semester of enrollment may delay graduation.
30 credit hours including the required capstone:

Core course credit hours:
BMI 601 Fundamentals of Health Informatics (3)
HCD 501 Biostatistics and Data Management (3)
HCD 502 Health Care Systems and Design (3)
HCD 511 Health Economics, Policy and Payment Models (3)
HCD 520 Population Health (3)
HCD 532 Health Care Management (3)
HCD 570 Process Engineering (3)
HCD 575 Leadership & Professionalism (3)

Elective options: choose at least one to achieve 30 credit graduation requirement:
HCD 510 High-Value Patient-Centered Care (3)
HCD 521 Law and Health Promotion (3)
HCD 540 Seminar in Science of Health Care Delivery (3)

Required
HCD 592 Research PART ONE and PART TWO (1 credit each, totaling 2 credits)
HCD 550 Capstone (1)

**SHCD Capstone**
To complete the Master of Science in the Science of Health Care Delivery, all students must complete a final culminating experience (HCD 550). To be eligible for graduation, students must receive a B or better in HCD 592 and HCD 550.

**Steps to Achieve the SHCD Master’s Degree**
In addition to the required coursework, additional steps to achieve a MS in SHCD are below. The program is designed to be completed in 9 months in an immersion (on-ground) program, 12 months as a full-time online student, and 24 months if an online student is participating on a part-time basis.

**IMMERSION (at the Downtown Phoenix Campus)**

Online Students
Online students are encouraged to follow either a 12-month (full-time) plan of study, or a 24-month (part-time) plan of study in order to successfully complete the program in a prescribed length of time. Full-time students take two courses per session, part-time students take one course per session.

Consult the Canvas organization for a sample plan of study based upon the session and term you started the program. Instructions for completing and submitting the iPOS are available in the Canvas Organization (accessed through MyASU), as well as at the Graduate College website. Failure to adhere to the plan of study will likely result in delayed graduation; courses are not offered each session, or even each semester. Please consult with the Graduate Coordinator to discuss any deviation from the prescribed plan of study for the term and session the program was started.
